We work with top-tier OEM's like Siemens, Intel, Cisco, Honeywell, and Bosch. We're also built for IEEE 802.11, LoRaWAN, IPv6, MQTT and various cloud compute platforms. Whether it's Zigbee, Bluetooth, Wi-Fi, 5G, NB-IoT, Sigfox or Z-Wave we've got people in-field with the knowledge to get your solution deployed. We live in the ceilings, elevator shafts, malls and airports throughout America! There's not a sensor, antenna, lens or beacon we can't enable.
