We work with top-tier OEM's like CommScope, Belden, Corning, Siemon, Panduit, Leviton, Rexel and EtherWAN. We're also built for IEEE 802.3, ISO/IEC 11801, ISO/IEC 61935, BICSI, TIA/EIA-568 and Category standards from 5e through 8. Whether it be patch panels, keystone jacks, crimping, splicing, OTDR or certifying, SG has a capability built for your project. We live in the cable ladders, raceways, conduit, red-iron, J-hooks and IDF's across America!
