Elite Desk-Side Setup & Assistance

Storage, Computing, Peripherals & Print

Business computing is as vast as an ocean in today's world. SG has labor and specialists that can handle peripherals of all varieties as well as NAS, SAN, desk-side support and MPS. Whether it's placing IP-telephony or flashing firmware, we have desk-side services that extend your IT group into any market, without flights and hotels.

We work with top-tier OEM's like Dell, Xerox, Polycom, Logitech, Apple, HP and many more. We're built for projects involving storage, computing, tablets, peripherals and printers. Whether it be retail, enterprise, higher education, medical, local & state government, or mobility and crash carts. SG breathes everything ethernet, USB, WiDi and anything with a keyboard. If it sits on a desk and connects to the Internet, we have a service built to help you deploy, maintain and service it.
